Esperanto®

Esperanto, one of the most successful groups ever designed by Drexel Furniture Company, has been adapted for hotel/motel use. Incorporating the same design themes found to be so popular in its consumer counterpart, Esperanto Hotel/Motel furniture offers to you, the discriminating hotel/motel owner, an opportunity to offer each of your guests that warm feeling of attractiveness and charm found only in the choicest accommodations.

An inspired blending of Mediterranean moods and styles, Esperanto's intrinsic charm lies in its boldness of design and vigorous, solidly proportioned lines. Three magnificent finishes: Moreno . . . a mellow, light brown tone; Hispania . . . a very dark brown umbery finish; Gold and Green . . . elegant gold leaf and stippled green paint, add to the beautifully grained pecan veneers and selected hardwood solids used extensively in its construction.

All the traditional combinations and special items you have come to expect for your guests — Formica® laminated plastic tops, dresser-desks, luggage benches, drawer consoles, etc. — are found in this new hotel/motel group.

Your guests expect the very best . . . give it to them . . . Esperanto — by Drexel . . . the most trusted name in furniture.
